- ❖ *We are talking about traffic accidents...*
- ❖ *Last year over 160 individuals in Aurangabad did not come back home...*
- ❖ *With their loss, one can imagine how many families were impacted forever...*
- ❖ *These people shouldn't have died...
... had they followed few traffic rules.*

A Road Safety guide...

...can save your life

- ❖ *Remember, a road is a place for everyone to travel on....*
- ❖ *Unfortunately, many of us think that we own it...*
- ❖ *We drive the way we want; the others drive the way they want; until...
...it becomes a newspaper story.....*

To end with, let us look at what can be done to prevent accidents...

- ❑ *No Over Speeding.. Speed contributes to at least 30% of road traffic crashes and deaths.*
- ❑ *No disregard.. to safe traffic rules and regulations.*
- ❑ *Change the mentality ..“Accidents always happen to someone else, not me.”*
- ❑ *Cautious driving in the Dark... Most of the accidents happen in the night when the roads are empty.*
- ❑ *Not so close... Drivers of big vehicles like buses and trucks cannot spot a two wheeler at a certain angle in their rear view mirror, which is a blind zone.*
- ❑ *Overtake with care... Avoid overtaking on high density traffic roads, curves, bridges, narrow roads, etc.*

contd...

- ❑ ***Wear a helmet...** Most of two wheeler drivers die due to head injuries.*
- ❑ ***Anticipate, the unexpected...** You might be driving right, but the others may not be.*

We are trying to do our best... But this is not sufficient...

We need your help to make our roads more safer...

Every life is precious...

Let us save at least one today...

Thank You.
